SPACE-BASED BUSINESS IDEA CONTEST

S-Booster is a space-based business idea contest for ventures, individuals, and businesses in different industries in the AsiaOceania region that aim to commercialize their business ideas utilizing “space” (※1).

Excellent ideas will be supported for commercialization through mentoring by experts. In addition, S-Booster will provide finalists with opportunities matching to investors and business companies, as well as support by awarding cash prizes for commercialization, when finalists present their business ideas at the Final Round.

※1 Not only businesses in space such as rockets, satellites and commercial space stations, but also businesses on the ground utilizing space assets such as satellite data and technology are eligible.

SCHEDULE

More details about the contest and application will be announced on the S-Booster website.
